MOHAMMED SHAJIUDDIN KHAN, EIT, PMP

Civil Engineer | Transportation Infrastructure | IDOT and Illinois Tollway
Chicago, IL | (309) 410-3603 | mshajik97@gmail.com

PROFESSIONAL SUMMARY

Civil Engineer (M.S. Civil Engineering, EIT, PMP and currently preparing for the PE exam) with 5+ years of consulting experience on transportation and building projects for the Illinois Department of Transportation (IDOT) and the Illinois Tollway. Strong working knowledge of plans, specifications, and details for bridge, pavement, roadway, drainage, lighting, and ADA improvements, with hands-on experience in design calculations, quantities, cost tracking, maintenance of traffic (MOT) staging, and QA/QC. Familiar with Bentley MicroStation, OpenRoads, and AASHTO design standards from graduate coursework in Advanced Transportation Design; also experienced with Civil 3D. Communicates directly with clients, contractors, and multidisciplinary teams, meets deadlines across multiple concurrent projects, and mentors junior staff.

CERTIFICATIONS

Engineer-in-Training (EIT), passed NCEES FE Civil Exam
September 2026
Project Management Professional (PMP), Project Management Institute, Certificate No. 4336531 April 2026 to April 2029
IDOT Documentation of Contract Quantities, Certificate No. 24-22535
July 2024 to July 2028

TECHNICAL SKILLS

- Design and CAD: Bentley MicroStation, OpenRoads, Civil 3D, AutoCAD, Revit, Navisworks, SketchUp, ETABS, STAAD.Pro
- Transportation Engineering: Roadway and Bridge Plans Review, Drainage, Pavement Rehabilitation, MOT and Construction Staging, Traffic Control, Lighting, ADA Compliance, Quantity and Cost Estimates, AASHTO Design Standards, IDOT Standard Specifications, Illinois Tollway Standards
- Quality and Project Controls: QA/QC, PFP/QCP, Contract Compliance, CMMS, e-Builder, Trimble Connect, Primavera P6, Microsoft Project, Microsoft Office (Word, Excel)

PROFESSIONAL EXPERIENCE

Office Engineer, SDI ENGR Corp, Chicago, IL Sep 2026 - Present

- Support the Resident Engineer and Project Manager with Illinois Tollway Phase III contract administration on systemwide bridge rehabilitation contracts; interpret plans and specifications, review shop drawings and submittals for compliance, and log/process RFIs, change orders, Submittal Logs, and Material Logs in e-Builder and Trimble Connect.
- Audit and verify Inspector's Daily Reports (IDRs), quantity calculations, weight tickets, mill certifications, and Bills of Lading (BOL) for conformance with contract requirements and as-constructed data; compile IDR Binder Books for DOC check, RE signature, and portal upload.
- Reconcile monthly pay item quantities, A5 (Material Inspection/Evidence), and A6 (Quantity Book) documentation prior to processing monthly progress pay estimates and reviewing contractor CPM schedule submittals.
- Coordinate QA/QC material testing and A5 test reports with the Material Coordinator; maintain daily AM/PM and biweekly PM Maintenance of Traffic (MOT) inspection files, upload weekly meeting minutes, and conduct pre-audit readiness reviews with the RE for project closeout.

Assistant Resident Engineer, Design Consulting Engineers, LLC, Chicago, IL Aug 2025 - Sep 2026

- Reviewed contractor work against plans and specifications on IDOT Phase III bridge and roadway projects; supported the Resident Engineer with quantity verification, pay-item audits, and progress documentation in CMMS.

- Verified Pay for Performance (PFP) and Quality Control Plan (QCP) submissions for hot-mix asphalt paving, supporting cost and contract compliance.
- Mentored and trained new construction inspectors on inspection procedures, documentation standards, and CMMS reporting.

Assistant Project Manager, CEP Engineering LLC, Chicago, IL Mar 2025 - Aug 2025

- Conducted daily field inspections on an IDOT bridge reconstruction project, confirming compliance with plans, specifications, and contract documents through closeout.
- Resolved field issues and tracked documentation to close out the project, applying IDOT Standard Specifications.

Civil Engineer, American Veteran Engineering, Chicago, IL Sep 2024 - Mar 2025

- Inspected Illinois Tollway pavement and barrier-system contracts; documented daily work in e-Builder (Inspector's Daily Report and Traffic Report forms).
- Performed roadway condition assessments under the Tollway Maintenance Quality Assurance (MQA) program.

Civil Engineer II, IDOT Engineering Consultant, Chicago, IL Apr 2024 - Aug 2024

- Performed daily field inspections on IDOT projects to confirm adherence to plans and specifications; analyzed equipment utilization and time and cost estimates to improve efficiency.
- Maintained daily diary entries and Inspector's Daily Reports (IDRs) in CMMS.

Junior Construction Manager, Concept Engineering Services, Atlanta, GA Aug 2023 - Apr 2024

- Supported planning, documentation, and coordination for commercial construction projects (adult daycare center, medical clinic); coordinated subcontractors and suppliers.

Structural Designer, Imarat Consulting Services, Hyderabad, India Dec 2018 - Mar 2021

- Delivered 25+ structural analysis and design projects for multi-story residential, single-family, and commercial buildings on budget and on schedule.
- Prepared design calculations, 3D models, and technical drawings (foundations, structural frames, cladding) using ETABS and CAD; performed site checks and coordinated with project managers.

SELECTED PROJECTS

Illinois Tollway Systemwide Bridge Rehabilitation, Contracts RR-25-2023 & RR-25-2024 - SDI ENGR Corp

- Reagan Memorial (I-88) & Veterans Memorial (I-355) Bridge Rehabilitation, Contract RR-25-2023 ($4.5M): Phase III office engineering and documentation control across 5 bridges in DuPage County; managed IDR Binder verification (tickets, certs, BOL), A5/A6 monthly quantity reconciliation, AM/PM and biweekly MOT logs, and pre-audit compliance in e-Builder and Trimble Connect.
- Tri-State Tollway (I-94/I-294) Bridge Rehabilitation, Contract RR-25-2024 ($5.3M): Administered Submittal and Material Logs, RFI/change order processing, monthly schedule and progress pay estimate reviews, QA/QC material testing coordination, and as-built record drawings for bridge deck overlays, structural repairs (5 bridges), and median pier crash walls.

I-74 Bridge Reconstruction at Brimfield, IDOT Contract 68D84 ($10.7M) - Design Consulting Engineers

- Phase III replacement of dual I-74 bridges with widened decks, 12-ft lanes, and upgraded shoulders; oversaw driven steel H-pile foundations, substructure QA (formwork, rebar, concrete), and geotechnical monitoring including sand drainage blanket and settlement platforms.

IDOT PTB 212, US 45 Reconstruction and Resurfacing, Champaign (Rebuild Illinois Program) - Design Consulting Engineers

- HMA milling and paving, PCC sidewalk and driveway reconstruction, and full ADA ramp compliance across day and night shifts; audited CMMS pay items and verified PFP and QCP plans as Assistant Resident Engineer and Documentation Engineer.

Briggs Street Bridge Reconstruction over I-80, IDOT Contract 62R55 ($7.3M) - CEP Engineering

- Full bridge replacement and widening with new concrete beams and LED lighting under staged and overnight closures; provided field engineering support, MOT coordination, staging oversight, and structural inspection.

Illinois Tollway Projects - American Veteran Engineering

- I-88 Pavement Repairs ($3.4M): partial-depth pavement repair over 37.5 miles, crack sealing, restriping, and continuous MOT; led inspection and construction supervision.
- Systemwide Noise Abatement Wall Repairs, I-294 ($1.9M): impact attenuators, guardrail, temporary barrier relocation, and terminal replacement under MOT; emphasis on barrier safety and traffic control.

US 14 (Division St) Projects, McHenry County - IDOT Engineering Consultant

- Smart overlay and crack and joint sealing ($4.3M); bridge preservation at IL 23 ($638K) with deck scarification, latex overlay, and joint replacement; SMART overlay and ADA improvements ($1.2M) including curb and gutter, PCC sidewalks, and drainage.

EDUCATION

Master of Science in Civil Engineering, Bradley University, Peoria, IL - May 2023

Relevant coursework: Advanced Transportation Design (AASHTO design standards, Bentley OpenRoads, Bentley MicroStation)

Doctor of Business Administration (DBA), Project Management focus, Indiana Wesleyan University, Marion, IN - In Progress
